## BIO

Native Californian Hans Glader is throwing open the UK Garage doors in the U.S. one track at a time. A producer and DJ influenced by his drumming background, Hans' feel good music is rhythmically intricate and seamlessly blends a lush soundscape of jazz and R&B with a bouncy and infectious groove. His innovative sound design delivers musical Easter eggs throughout his songs and has garnered the respect and collaboration of UKG's most notable stars, including British baseline icon DJ Q and Night Bass founder AC Slater.
